The following revisions shall take precedence over any conflicting part of the original contract documents.

Part 2 – Special Provisions and Contract Documents

Revision – We have revised part of SP 905-3.2.2.b titled "Surface Preparation" that currently reads, "Compensation for such removal will be at the unit cost bid for such work" to more clearly describe the intended scope and revise as follows, "Compensation for such removal will be at the unit cost bid for such work under Item No. 9052102 paid per linear foot of stripe removed based on 4 inch width."
